

New Schedule

15/02/2021

Schedule on SIGAA is incorrect

In these slides I present what I think ought to be the schedule, based on a document that lists all the classes plus the days and hours of the week in which they are taught.

This schedule does not mention, for classes that are taught every two weeks, in which weeks they should be taught, and which weeks are skipped - however, I understood from the coordinator of the course that we should have started on the first day of this quadrimester, so I base the schedule on that.

Your teacher,

Richard Jacobs

JANEIRO						
Dom	Seg	Ter	Qua	Qui	Sex	Sab
					1	2
3	4	5	6	7	8	9
